

LITTLE CYPRESS CREEK FRONTIER PROGRAM | Community Engagement Meeting

Bond Project Map ID: F-26

The Harris County Flood Control District will hold a Community Engagement Meeting for the Little Cypress Creek Frontier Program, a component of the HCFCD’s overall Frontier Program, which is an organized effort to plan for regional drainage infrastructure in advance of future land development.

The purpose of this meeting is to inform residents about the status of the Little Cypress Creek Frontier Program and share project information. These projects will be funded with bonds approved by Harris County voters on August 25, 2018. Community engagement is an important ingredient of the Bond Program, and we invite you to take part in that process. For questions, please contact the Flood Control District at 713-684-4000, or fill out the comment form online at www.hcfcd.org/F26.

The meeting will be held on:

Wednesday, November 14, 2018, from 6:00 p.m. – 8:00 p.m.
(Presentation to begin at 6:15 p.m. with an open house to follow)

Richard & Meg Weekley Community Center
8440 Greenhouse Road, Cypress, Texas 77433

Please note that the meeting location is near the Cypress Creek watershed; however, the location is situated just south of the watershed boundary.

The Little Cypress Creek Frontier Program focuses on the 52-square-mile Little Cypress Creek watershed in northwest Harris County. This area, which is experiencing rapid development with the construction of the Grand Parkway, lacks sufficient natural drainage to accommodate expected growth. By collaborating with land owners and developers, the program works to identify a large-scale, mutually beneficial plan for drainage that cost-effectively maximizes stormwater mitigation, including flood damage reduction, and water quality, as well as opportunities for public recreational amenities and open space.
