General Information

Date and Time:

June 10, 2020
6:30 p.m. - 7:30 p.m.

Location:

This meeting was held virtually on the Public Input platform.

Community Input

- Concerns about the length of the project
- Concerns about project information not being inclusive to the Spanish community
- Concerns about the new intersections at North and South Braeswood and how traffic will be affected
- Concerns about the bike trail

Meeting Overview

Harris County Flood Control District hosted a virtual presentation and provided the opportunity for community members to ask questions about the Hillcroft Ave Bridge Reconstruction project. The meeting was held virtually on the Public Input platform on Wednesday, June 10, 2020 from 6:30 p.m. to 7:30 p.m.

As a part of Project Brays, this bridge is to be reconstructed in an effort to reduce flooding along Brays Bayou. The project will raise and modify the existing bridge to have four 11- foot wide lanes, including a left-turn lane, and 10-foot sidewalks on both sides of the bridge.
